28. GENERAL INTEREST HYPNOTHERAPY COURSES .................................................................................. 37
1. INFORMATION/ORIENTATION

Welcome to the Academy of Applied Hypnosis. The Academy holds regular Information/Orientation Days, usually just prior to commencement of a course. If you have been unable to attend one of these and you wish to enrol, please make an appointment with Administration for a one-on-one information/orientation. Much of the information is contained in this Handbook but there may be other more specific details you need to know, e.g., which textbooks you will need for which modules and where to source books or, you may need to discuss the RPL (Recognition of Prior Learning) process more fully, or you may have questions you need to ask.

The Academy was founded by Leon W. Cowen in 1983 to meet what he saw as an urgent need for a standard of professional training for Clinical Hypnotherapists that is as high, as comprehensive and as soundly based as the training for any other of the allied health professions. The Academy has ensured that in developing, adapting, delivering and assessing course modules, the training fits the needs of students and the profession. This is not possible without input from students and others in the profession. The Academy welcomes written feedback aimed at improving the learning outcomes (texts, module design, assessment procedures and any topics which might be considered for inclusion). At the end of each module the Academy provides you with a feedback sheet for this purpose.

The Academy also includes counselling in its training program. The counselling training program can be taken alone or in conjunction with clinical hypnotherapy.

The Academy’s training methods are strongly based in Adult Learning principles and methodology, thus a proportion of your learning is directed self study.

You also need to be aware that the training method means that you will not always be working through modules in a linear fashion. For example, if you have elected to undertake five modules in any given term, you do not have to wait until you have completed one module before starting another. You may find yourself working on one module on the Monday morning, another on Wednesday, another on Friday and another on Saturday. It is your decision whether to undertake all modules in a given term or to undertake the minimum. The Academy has found this flexibility helps students to plan their studies around work and family.

If ever you have any questions about your studies here at the Academy please direct those questions to Academy personnel rather than to other students. If somebody asks you about the curriculum, or about timetables, or about their studies, please advise that person to get the information directly from the Academy. With the best of intentions of being helpful, you may provide incorrect information.

There is a strong possibility that you will confront some personal issues due to the experiential nature of the training. The Academy does not demand that you deal with your own issues (although that would certainly be the ideal), however it is demanded that you acknowledge, even if only to yourself, any such issues that may arise. This is essential if you are to become an effective therapist. If a therapist has no awareness of his or her own issues, then the possibility of that therapist getting “hooked” into a client’s issues is enormous. All therapists get “hooked” somewhere along the line. An aware therapist will know they have been “hooked” and can do something about it – an unaware therapist will not know the “hook” is there and this means that the therapist may not be making the distinction between their own issues and the client’s issues.

Please understand that as a therapist your self-awareness needs to be an ongoing process throughout your professional life. If you are not prepared to do this, then for your own sake and for your future clients, you need to review your choice of profession.

2. ACADEMY ENVIRONMENT

The Academy is located very close to coffee shops and takeaway food services. With the exception of bottled water, no food or drink is to be consumed on the premises. Whilst the Academy does not provide facilities for the preparation of meals, arrangements can be made to store food in the refrigerator until break or lunch time.

You have a choice of either bean bags or hardback chairs at a table/desk when attending workshops.

Mobile Phones should be turned off during Practical Workshops and Therapeutic Applications Workshops.

Smoking is not permitted on the premises. Note the exception to this rule: occasionally one of the therapists will be working with a client who wishes to cease smoking and the treatment strategy may involve getting the client to take a couple of puffs of a cigarette. It is not a common occurrence but you need to be made aware of it anyway.
Also please avoid using the heavier perfumes or aftershaves as some people have an intolerance which can manifest as asthma, sinus headaches, nausea, etc.

3. MISSION STATEMENT

To present hypnotic theory in a functional form and to give practical instruction in the application of hypnosis at both personal and professional levels. All training, whether personal or vocational, is competency based and each individual’s capacity to realise his or her unique potential is honoured and developed within the framework of our credo: Se Adiuvare (trans: “to help oneself”)

4. CODE OF PRACTICE

In our endeavours to pursue our mission, we provide the best professional service we can to our clients and we pledge:

1. To ensure that we provide the best possible outcome for our clients commensurate with our abilities skills and experience.
2. To never work beyond one’s competence and to make appropriate referral when faced with client needs beyond our experience.
3. To never raise unwarranted expectations in clients.
4. To refrain from advertising or otherwise misrepresenting our competence or services.
5. To refrain from involvement with clients that is outside the therapeutic relationship and to respect the potential for close emotional bonds.
6. To be honest and fair when dealing with clients and others.
7. To ensure the complete confidentiality of the therapeutic process unless this is compromised by regulations requiring disclosure.
8. To encourage open commitment and feedback as part of the therapeutic process.
9. To ensure there is an open process for resolution of client grievances and maintain records available for both client and practitioner benefit.
10. To seek to develop our skills by continued professional improvement; and.
11. To strive to enhance the profession by supporting other practitioners; assisting our professional association; promoting research and education with hypnotherapy and working collegiately with other professions

5. ACCESS, EQUITY AND PARTICIPATION

The Academy of Applied Hypnosis has established policies in relation to access in its courses which ensures equity of access for all students. The Academy has determined minimum requirements for entry into all its courses. These are based on educational requirements to undertake study. In all cases, students must have the prescribed educational entry requirements. All entry requirements appear on the Academy’s promotional literature for the courses on offer.

The Academy of Applied Hypnosis opens its doors to all students who meet the educational prerequisites, regardless of racial origin, colour, nationality, gender, sexuality, religion, and physical ability.

The Academy does its best to accommodate course participants with special needs – please check with the Academy to see if and how we can assist you

Students come from all walks of life to study at the Academy. An equal opportunity also exists in the classroom and for all Academy facilities and resources. Students are entitled to and afforded equal access to educational resources, lecturing staff and career opportunities offered through the Academy.

Training Guarantee

Academy of Applied Hypnosis will assist all student/learners to complete all training and/or assessments once the student/learner has commenced study in their chosen qualification or course of study. Unless the student submits a formal Letter of Withdrawal notifying the RTO that they wish to withdraw. If a student voluntarily drops out, Academy of Applied Hypnosis will extend this guarantee for a maximum of six months from initial course commencement date. In the event that Academy of Applied Hypnosis cancels or postpones an advertised course that a student has enrolled in, all fees paid by the student will be refunded in full. Once students have
enrolled Academy of Applied Hypnosis will complete any that has commenced or find an alternative provider or course for the students to finish their studies.

- Entry Requirements

*Certificate IV in Clinical Hypnotherapy (Reg 91524NSW)* the applicant must:
(a) have satisfactorily completed Year 10 (in NSW education system) or its equivalent; and
(b) be of mature age i.e. over 21 years of age; and
(c) demonstrated at interview the ability and capacity to undertake study at this level. Particular attention will be given to the prospective student’s level of maturity, character, and personal qualities; and.
(d) applicants from a non-English speaking background must supply proof of achievement of minimum standard of IELTS 5.5 – 6.0 or equivalent.
Diploma of Clinical Hypnotherapy (Reg 91525NSW) the applicant must:
(a) hold the Certificate IV in Clinical Hypnotherapy (Reg 91524NSW) or equivalent; and/or
(b) have satisfactorily completed Year 10 (in NSW education system) or its equivalent; and
(c) be of mature age i.e. over 21 years of age; and
(d) demonstrated at interview the ability and capacity to undertake study at this level. Particular attention will be
given to the prospective student’s level of maturity, character, and personal qualities; and.
(e) applicants from a non-English speaking background must supply proof of achievement of minimum standard of
IELTS 5.5 – 6.0 or equivalent.

Advanced Diploma of Clinical Hypnotherapy (Reg 91526NSW) the applicant must:
a) hold the Diploma of Clinical Hypnotherapy (Reg 91525NSW) or equivalent; and/or
(b) have satisfactorily completed Year 10 (in NSW education system) or its equivalent; and
(c) be of mature age i.e. over 21 years of age; and
(d) demonstrated at interview the ability and capacity to undertake study at this level. Particular attention will be
given to the prospective student’s level of maturity, character, and personal qualities; and.
(e) applicants from a non-English speaking background must supply proof of achievement of minimum standard of
IELTS 5.5 – 6.0 or equivalent.

Certificate in Counselling
Mature age entry and an ability to understand the coursework is sufficient.

Advanced Certificate in Counselling
Certificate in Counselling or equivalent

Diploma of Counselling
Advanced Certificate in Counselling or equivalent

Advanced Practitioner Certificate in Clinical Hypnotherapy
The applicant must provide documentary evidence of existing qualifications.

Master Clinical Hypnotherapist. The applicant must have
(a) knowledge and experience sufficient to add to the existing body of knowledge within the profession of Clinical
Hypnotherapy; and
(b) an ability to investigate conditions, theories and issues or other aspects pertaining to the practice of Clinical
Hypnotherapy; and
(c) a demonstrated ability to achieve excellence in the field of Clinical Hypnotherapy.

6. Enrolments and Registration Choices
The deadline for enrolments is shown on the timetable for each term, (usually one calendar month prior to the
commencement of the term in which you plan to study the selected modules). If there are insufficient enrolments into
any given module, the module may be rescheduled and/or presented in a modified manner.

Each term (approximately 3 months) it is expected that a student who has undertaken a full time workload will complete
8 modules and a student who has undertaken a part time workload will complete 4 modules. Should difficulties occur
which interfere with fulfilling your workload commitment you may apply for consideration to vary your workload for
that term. To maintain enrolment in a course, each student is required to enrol into a minimum of two modules per term.
Enrolment requirements include the mandatory practical modules. If you feel that you have not completed sufficient
modules to meet the requirements of the practical modules you may apply for an exemption.

Each student is required to have an interview (in person or by electronic means being Skype or phone) once every two
terms.

Should these conditions not be met the Academy will deem that you have withdrawn from the course and re-enrolment
will be required. If you paid a registration fee with your initial enrolment, you will not need to pay that again, but you
will be charged the prevailing Administration Fee (see the prevailing Fees and Enrolment Form).
Course Registration

Course Registration is by payment of the non-refundable Course Registration Fee that is payable upon initial enrolment into a course. What do we mean by “Initial Enrolment into a course”? It means the first time you enrol into any one course:

Example 1. Enrolment into the Advanced Diploma of Clinical Hypnotherapy (91526NSW) automatically includes enrolment into the Certificate IV in Clinical Hypnotherapy (91524NSW) and the Diploma of Clinical Hypnotherapy (91525NSW) and the Course Registration fee for the Advanced Diploma will cover all three courses.

Example 2. Enrolment into the Diploma of Clinical Hypnotherapy (91525NSW) automatically includes enrolment into the Certificate IV in Clinical Hypnotherapy (91524NSW). The Course Registration Fee for the Diploma will cover both courses. However, in this second example, if you later enrolled in the Advanced Diploma you would be required to pay the Course Registration Fee for the Advanced Diploma because it would be your initial enrolment into that course.

* Re non-refundable Course Registration Fee, note the exception. See in this Handbook, under “16 REFUND”, “Initial Module/Section Refund Guarantee”. This guarantees that if, within one month of your enrolment and during the very first module or section of a module that you undertake with the Academy, you decide to withdraw from the modules or course that you enrolled into, you will be refunded what you paid with the exception of textbooks.

How to Enrol – First Enrolment into a course

First you need to decide on the qualification you want to achieve. Then determine whether you will undertake a full time workload or a part time workload. A full time work load requires you to undertake 8 modules per term. A part time workload requires a minimum of 4 modules per term. [Note: as stated earlier, workloads can be varied if necessary. For example if you have completed your part time workload and find that you have the time to do an extra module that term, you can enrol into that one module. Or if you are faced with unforeseen circumstances and can only do some of the modules in your workload you can request to vary your workload for a specific term.]

Complete the enrolment form. Notice the information under the heading ‘How to Enrol’ on the front page of the Enrolment Form. You need only send payment for the Course Registration Fee with the Enrolment Form. Do not send payment for modules at this stage.

As soon as you have sent off your Enrolment Form and Course Registration Fee payment to the Academy you should go to our website, www.aah.edu.au and follow the prompts to register as a student. Within 2 working days (Mon-Fri) the Academy will process your student registration on our website and the first module will be on its way to you. Please also see 12. To Help You in this Handbook.

Within 14 days of you registering yourself on our website you should pay your first instalment of the balance of Term Fees. Term fees are calculated based on the number of modules a student enrols in per term (full time = 8 modules, part time = minimum 4 modules). Term Fees are paid in instalments throughout the term e.g. Full Time load – fees are paid in equal instalments, Part Time fees are paid in equal instalments. Students requiring a variation in this payment arrangement should contact the Academy but please note that you will not be permitted to pay more than $1500 in any one instalment after commencement.

How to Enrol – Second and subsequent enrolments into modules in a course

On the enrolment form, select the modules you want to undertake to fulfil your part time or full time workload. Total the cost to get the total Term Fees for that term. Your first instalment for the Term Fees should be sent to the Academy with your Enrolment Form. Within 2 weekdays (Mon-Fri) the Academy will have loaded up your Course Notes Area on our intranet and the first 2 modules will be immediately available to you. As and when you complete each module the next module in the queue will become available to you. If ever you want to change the order in which your selected modules are delivered to you, you need only email or telephone the Academy and tell us and it will be done as soon as possible – i.e. immediately if a weekday, the next working day if a weekend.

We will support you

To assist you, as you progress through the training, to achieve the highest possible proficiency, the Academy will support your term by term enrolment and offer the following benefits:

- Free repetition of workshops already successfully completed
- The hours for the Supervision Workshops and repeated workshops will be credited to you Senior Intern Clinic module when and if you undertake that module.
7. EXEMPTION/RECOGNITION OF PRIOR LEARNING (RPL)

Exemptions from modules or sections of modules may be granted in cases where a student has achieved a level of competence which is equal to or exceeds the standards required by the Academy for the course or section which is being undertaken. RPL is a method which allows recognition of what you have already learned from other courses, work experience, life experience and any training previously undertaken. You provide evidence to demonstrate you have completed the learning outcomes in the Academy’s module or course. If what you have learned previously is relevant you receive an exception from certain sections of the course or module in question.

You should apply for RPL in any module(s) if you think your prior learning and/or experience means you can provide evidence to show that you are already competent. You can obtain an Application for a RPL Kit from Administration if you believe there are modules in which you have already achieved competency.

- Mutual Recognition Policy

Mutual recognition is applicable for those who have successfully completed equivalent studies at any other Registered Training Organisation (“RTO”). Clinical Hypnotherapy is a self-regulating profession and currently the profession is in a very active stage of establishing standards of practice. This involves a lot of work between the schools which teach clinical hypnotherapy, professional associations and individual professionals in the field. The Academy hopes and anticipates that as other providers of training in Clinical Hypnotherapy become RTOs, it will become possible to establish equivalence of topic and standard within and between each RTO.

8. REQUIREMENTS FOR AWARD OF QUALIFICATIONS

When you have met the stated competencies (i.e. demonstrated through assessment as specified by the Academy) and provided you have fulfilled all your academic, administrative and financial obligations to the Academy you will be awarded your qualifications. Qualifications that do not require the impression of the Academy’s Seal are delivered via the Academy’s Intranet. Qualifications that do require the Seal are awarded directly to the graduate. If the graduate cannot attend the Academy to collect their award, it will be posted.

Statements of Attainment are updated each time a module is completed and delivered to the student via the Academy’s Intranet.

Participants who fail a module twice may be asked to show cause as to why they should not be excluded from further studies. Those who fail modules or who have been excluded have the right of appeal against such failure or exclusion if they consider they have been failed or excluded unfairly - see “19 Grievance Policy & Procedures” and “20 Appeals Mechanism” in this Handbook.

9. COURSE MATERIALS

In this Handbook a brief description of modules is given as well as the course materials required (“22 Professional Training Pathway” onwards.

In order to receive course materials you will need to register as a student on the Academy’s Intranet. Once you have given the Academy your enrolment form, you should go to the Academy’s website and follow the prompts to register as a student. Please see “12 To Help You, Academy Intranet”

A set of notes (in a word or PDF format) and audio lectures (in MP3 format) if applicable will be made available to you via the Intranet once your enrolment is processed. If you do not have e-mail you must advise Administration when you enrol so that the notes can be delivered to you some other way, e.g. we can put it onto your USB or CD for you (which may incur an additional fee). Please allow fourteen days for processing your enrolment/order.

If you have any difficulty in obtaining textbooks, the Academy will source and/or purchase them for you if requested. Please note that the wholesale book distributors generally charge a “small order surcharge” and the Academy will pass this cost on to you (along with Postage and Handling if the book(s) need to be posted to you). Retail booksellers can sometimes offer a lower price than the Recommended Retail Price as a result of student discounting schemes, etc.

When resourcing your textbooks it would be wise to check if the book is available as an on-line copy as this could save you the expense of retail hard copy, not to mention carting around heavy textbooks if you are a traveller.

Hard copy notes are not provided unless for good reason – for this service, please refer to the Schedule of Fees which accompanies the Prospectus.
10. RETURN OF ASSIGNMENTS

Assignments and Exams are designed to be completed on-screen. Assignments are generally found at the end of the notes for the module. If a written exam is the means of assessment, then it will be your responsibility to contact the Academy to arrange for the exam to be uploaded to you. If you have arranged with the Academy to send hard copy instead of uploading you will have 2 extra days. Please note that with hard copy submissions the Academy will not be able to return the marked exam to you.

You should allow one month after you have uploaded your assignment or exam to the Academy for the exam to upload the marked assignment or exam back to you. If you have arranged with the Academy to send your assignment or exam in hard copy, it will be your responsibility to contact the Academy to obtain your marks.

11. ASSESSMENT STRATEGIES

The Academy uses Assessment Strategies to ensure an appropriate level of competencies (knowledge, understanding and skills) at all levels of your training. The assessment strategies can vary from module to module, so you should carefully read the Learning Outcomes in the introductory notes for each module to find out what is expected of you. As mentioned earlier in this Handbook the Academy strives to assist those with special needs and this includes finding ways to implement assessment strategies for those who may be blind, deaf, or ill at the time of assessment. Please talk with the Academy as we may be able to assist.

The Most Commonly Used Assessment Strategies are Written Assignments, Examinations (oral and written) and Practical Demonstrations.

Note: The Directed Self Study Exercises are not part of the Academy’s assessment strategy for assessing students’ competency. They are instead aimed at helping you test and develop your understanding of the course material.

- Written Assignments

Written assignments are an integral component of assessment strategies. A written assignment gives you the chance to examine hypnotherapy on both the theoretical and practical levels. The written assignment requires you to establish what you need to know, to locate the sources you need to expand your knowledge, then to present your learning experiences / findings and / or opinions in a structured format. You are expected to critically appraise or analyse the reading and research you have undertaken and to present your own views and alternative arguments. Written assignments should be in your own words and presented in a clearly structured manner.

Plagiarism

Assignments which plagiarise other peoples work will not be marked. Plagiarism is the action of taking and using somebody else’s work (ideas or writings) without acknowledging that it is somebody else’s work and passing it off as your own. Therefore, when you use somebody else’s words you must put quotation marks around those words and say whose words they are. When you summarise or paraphrase, or quote somebody else’s work you must acknowledge your source of information. When you develop an idea which originated from somebody else’s work you must acknowledge that original source.

Referencing

When you quote other peoples’ work, or where you refer to someone else’s work, ideas or views, you must attach a bibliography (a list of reference sources you have used). The referencing system used by the Academy is the American Psychological Association (APA) 5th Edition. Your article references are written in the bibliography in the following manner:

1. Article author/s
2. Date of publication in parenthesis ( ).
3. Article title.
4. Journal Title and volume number (italicised),
5. Issue (or part) number for journals without continuous pagination, which goes in brackets followed by a comma e.g. ( ),
6. Page number(s) - finish the element with a full stop (period).

Two examples are:
The front page should state which course(s)/module(s) you are doing and the name of the assignment. It is advisable to keep a copy of assignments that you submit to the Academy. If you have arranged with the Academy to submit hard copy instead of uploading your assessment, your work should be typed on A4 paper, single sided, margins of 2.5cm and all pages numbered.

Referencing of articles, books, websites etc are different. It is important that you use the correct style. For a more comprehensive outline of the APA referencing system you can search the web or use these links:
University of Western Sydney: [http://library.uws.edu.au/FILES/cite_APA.pdf](http://library.uws.edu.au/FILES/cite_APA.pdf)

- **Examinations**

  It is your responsibility to contact the Academy to arrange for the exam to be uploaded to you. Exams are open book and generally you will have 5 days to complete and upload the exam back to the Academy. If you have arranged with the Academy to send hard copy instead of uploading your exam you will have 2 extra days.

- **Practical Demonstrations**

12. **TO HELP YOU**

- **Academy’s Intranet**

  The Academy’s Intranet was created especially for Academy students. It allows a rapid response time to student enquiries and written assessments can be uploaded for marking and return.

  When you complete your Enrolment Form you should also go the Academy’s website, www.aah.edu.au and follow the prompts to register as a student. Within 2 working days you will receive an email from the Academy telling you that your class notes and assignments are ready for downloading and how to do this – it is very straight forward and if you should get stuck please do not hesitate to send us an email or telephone (02) 9415-6500.

  You will be able to use the Intranet to send emails to the Academy. If you need to email the Academy you should use the Intranet, i.e. go to [www.aah.edu.au](http://www.aah.edu.au) and log in. Then from your Main Menu click on the Enquiry Box, type your email and click on submit. That way the Academy gets your email quickly and can respond in a reasonable time. Please do not use your usual email facility to send an email to the Academy as it may get caught up in spam.

  If the Academy sends an email to you and wants you to reply, there will be a link in that email for you to click on. When you click on that link, a box will open up for you to type in your reply, then you scroll down and click on submit. If there is no link in the Academy’s email to you, then a reply is not expected from you - but if you do want to say something about the email, just go to your Main Menu and click on Enquiry box to do so rather than using your normal email reply function.

- **Study Suggestions**

  With the expected duration of your chosen course(s)/module(s) in mind, it is advisable to plan ahead to determine how many hours per week you will devote to study. To help you do this refer to the nominal module hours in Item 23 in this Handbook “SUMMARIES OF MODULES – PROFESSIONAL HYPNOTHERAPY TRAINING”. The Academy feels that it is important that you design a study timetable and stick to it. Your timetable should include your study times, the dates you must submit assignments to the Academy, dates and times of your workshops etc.

  Each set of module notes contain the stated Learning Outcomes of each module. The Learning Outcomes specify the objectives of the module, i.e., what competencies the module aims to provide and what you are expected to do to demonstrate those competencies. Reading them again after you have completed the module can help you assess your progress.

- **Study Support Groups**

  Study groups are an effective way of adding extra dimensions to your learning and enthusiasm. If you would like to belong to a study group please go to that area on the Academy’s website.

- **Mentors**

  A Mentor is somebody who is available to discuss issues associated with your studies. Your Mentor does not need to be qualified in hypnotherapy or any particular field of therapy or education. Your mentor could be a work colleague, a
friend, a family member, or any member of the community. A Mentor is someone who listens, encourages, lets you
think for yourself and acts as a sounding board. If you have such a person who would like to be your Mentor, the
Academy will send them a document called *Mentor* to help them to help you.

- Requests for Extension of Time.

Consideration will be given to any reasonable request for an extension of time, however you will be asked to provide a
medical certificate or other documentation relevant to the circumstances upon which you are basing your request for an
extension. Requests for extensions should be made prior to the assessment date. If a student misses an assessment and
does not contact the Academy within 2 weeks, they will be deemed to have not satisfied the module requirements. No
consideration will be given for normal work commitments and extracurricular activities. It is your responsibility to plan
ahead.

13. LIBRARY SERVICES

The library will require a deposit equal to the replacement value of the book before releasing a book to you. The
deposit is returned to you when the book is returned. Many students prefer to leave a ‘permanent’ deposit which they
then get back when they no longer wish to borrow books. The ‘permanent’ deposit usually takes the form of a signed
credit card slip which the Academy prefers holding cash. The current borrowing fee can be ascertained by asking
Administration. Books must be returned to the library within one month.

14. RESPONSIBILITY OF STUDENTS AND OF THE ACADEMY

You have undertaken to do the work required within the time specified by the Academy and the Academy has
undertaken to provide you with the tutors, materials, and information to enable you to do so. The Academy has certain
other responsibilities towards you as follows:

- Compliance with Legislative Requirements

The Academy complies with all relevant State or Territory laws including Commonwealth or State/Territory legislation
pertaining to:
- Occupational Health & Safety;
- Workplace Harassment, Victimisation and Bullying;
- Anti-discrimination (including equal opportunity, racial vilification and disability discrimination);
- Vocational Education and Training and apprenticeships and traineeships

The Academy can provide you with details of such legislation and discuss with you how it may affect your studies. If
you have any concerns about legislative matters, please contact Administration and arrange an appointment.

- Confidentiality and Privacy

The Academy is committed to protecting the privacy of its students insofar as possible. We do not in any way share any
personal details with other organisation. The Academy may be required by law to provide general information about
student enrolments to government bodies, and may be required to provide access to student records to government
authorised auditors. In such cases, student records will be kept confidential and used only for statistical reporting
purposes or as otherwise required by law.

You, the student, are also expected to maintain confidentiality at all times. Any personal information you become
possessed of during the course of your working with other people (family, friends, clients) must not be discussed with
any other person. This means that you can talk to your lecturer or mentor or colleague about a case, but you cannot
identify the person or provide any information which would identify the person. The Academy applies the same rule of
confidentiality in its dealings with you. This means that when you attend a workshop, any personal information you
share in that workshop is held confidential by all participants of that workshop and may not be discussed outside of that
workshop.

- Your Personal Records

We maintain strict security of our student record system. Student records are securely maintained and archived for a
period of thirty years. All students have access to their personal records after verification of their identity. Students
may receive a transcript of the records of the courses undertaken, grades received, and completion attained. Requests
for access to student records and for transcripts will be processed and the information provided within seven
working days of the request. Requests should be made to Administration.

- Access to your Personal Records by a Third Party

Other than general information as specified in the first paragraph under the heading “Confidentiality and Privacy”
above, no information will be disclosed about you to a third party without written consent from you. In instances where
the content of student records is to be disclosed to a third party, you are required to provide a signed written request for
the Academy to provide that information. The letter must be explicit in the information you require the Academy to
provide and must specify the full name and address of the third party to whom you request the information to be
provided.

15. SUSPENSION AND EXPULSION

A student may be suspended or expelled from the Academy of Applied Hypnosis at the absolute discretion of the
Executive Director and Principal in regard to:
- Non compliance with the policies and conditions as stated in the Prospectus and / or Student Handbook.
- Misconduct or repeated disruption.
- Claiming qualifications they do not hold.
- Non payment of fees.
- Cheating or plagiarism.

16. REFUND

The Academy strongly advises you to seek expert advice to ensure that you understand the pre-enrolment documentation
provided to you, including this Handbook, and to ensure that you understand the terms and conditions of enrolment
before enrolling.

Refunds (initiated by the student) for goods and services provided by the Academy incur a fee of 10% of the amount
refunded. This fee is deducted from the refund amount at the time of refunding. Please note the exceptions below under
the headings “Initial Module/Section Refund Guarantee”, “Requests for Withdrawal after commencement” and
“If the Academy does not deliver the Module(s)”.

An application for refund of course fees under any other circumstance must be made in writing to
Academy of Applied Hypnosis. An eighty five percent (85%) refund is available up to ten (10)
working days prior to the commencement of the training program. Cancellation of enrolment
under these circumstances will incur a fifteen percent (15%) administration fee.

No refund is available where participants leave prior to completing the course. However, should
participant wish to finalise incomplete units of competency in a future course, the original fee can
be used as a credit towards that course. This offer is available within a 12 month period from the
time initial payment is made.

Refunds will be considered on a pro-rata basis for student who fall ill or are injured to the extent that
they can no longer undertake the course providing a supporting Medical Certificate is supplied to
Academy of Applied Hypnosis.

Initial Module/Section Refund Guarantee.

The Academy guarantees to refund your tuition fees (includes course fees and RPL fees but excludes textbooks) if
(a) before finalising your initial module / section of a module of study, and
(b) within one month of your initial enrolment
you decide to withdraw your registration/enrolment. If you paid a registration fee, it will also be refunded under this
Guarantee. No academic acknowledgement will be given for your incomplete study.

Put another way, you can cancel your registration/enrolment and be refunded your tuition fees (being course fee,
registration fee and RPL fees but not textbook costs) if it is your first registration/enrolment with the Academy.
However, you have to withdraw within one month of your first registration/enrolment and it has to be before you have
finished the first module/section of the course. You will not receive any certification or credit or accreditation or similar
for any coursework that you did in that first module or section.

Requests for Withdrawal Before Commencement of Term

If it is your initial enrolment and registration and you have not yet commenced your first module with the Academy then
the conditions as outlined above under “Initial Module/Section Refund Guarantee” will apply.

If it is not your initial enrolment and registration and you have already completed one or more modules, then the
registration fee that you paid is not refundable, and a refund equivalent to any other amount you paid minus 10% will be
refunded for any module that has not been commenced, provided the request for refund is received in writing two (2) or
more weeks prior to the commencement of the term.
Requests for Withdrawal After Commencement of a term.

If it is your initial enrolment and registration and you have not yet commenced your first module with the Academy then the conditions as outlined above under “Initial Module/Section Refund Guarantee” will apply, i.e. you will receive a full refund of course fees, RPL fees, and Registration fees (but not textbooks).

If it is not your initial enrolment and registration and you have already completed one or more modules or sections of study, then no refunds are given for withdrawals after the commencement of a term unless stated otherwise in this handbook. Please also see Item 6 “Enrolments and Registration Choices” and “If the Academy does not deliver the Module(s)” below.

If the Academy does not deliver the Module(s).

If for any reason the Academy does not deliver the module(s) you will be informed at least two weeks prior to the commencement of the term and will be offered the choice of transferring to other module(s); or a Full Refund of all fees paid for the module(s).

17. DEFERMENTS

Course participants desiring to defer a module that has already commenced should apply in writing to the Executive Director, clearly outlining their request and the duration of the deferment. An administration fee will apply.

18. TIMETABLE AND CURRICULUM CHANGES

As part of our commitment to the highest educational excellence the Academy keeps its classes small. Small classes benefit the course participant. The Academy's policy is to run classes whenever possible – even with small classes. This is achieved by modifying the duration to the lesser number of students. If the class numbers are eight (8) or less the module duration will be shortened whilst maintaining the required competencies.

Some variations can also occur due to the scheduling of public holidays and conditions may vary from term to term. We are continually reassessing our courses through professional association requirements, course participant and lecturer feedback. When timetable or curriculum changes occur we undertake that all endeavours will be made to ensure that no course participants will be disadvantaged.

19. DURATION AND DISTANCE LEARNING

The duration to complete course or modules is very much dependent on the student. The Academy has some approximations but these are variable and dependent on the individual student and exclude clinic hours.

Each term (approximately 3 months) it is expected that a student who has elected a full time workload will complete 8 modules and a student who has elected a part time workload will complete 4 modules. Should difficulties occur which interfere with your planned workload you may apply for consideration to vary your enrolment conditions for that term.

The Academy conducts training by a combination of on-line and in-house classes. This gives the student the flexibility to study when they wish and still know the Academy is available when they need assistance. To round out the professional skills the Academy conducts practical classes which are required to complete qualifications. If you are unable to attend in-house practical classes, an application for completing the course totally by distance will be considered. Whilst the courses and modules can be completed by distance learning, some organisations e.g., health funds and professional associations may require a certain percentage of the course to be completed in-class (face to face teaching). Therefore the Academy suggests you confirm the specific requirements of any organisation from whom you intend to seek acknowledgement.

20 GRIEVANCE POLICY & PROCEDURES

There may be an occasion when you believe you have been unjustly treated by the Academy or indeed a fellow student. We have developed procedures to enable these grievances to be resolved as quickly as possible with processes that are fast and fair to all involved.

1. If you or anyone else has reason to believe that a CRIMINAL OFFENCE has been committed you are duty bound to inform the police immediately. However, most complaints are not criminal in nature.

2. Most complaints can be resolved initially by discussion with the other party. Maybe your assessment marks are lower than you had hoped, maybe you feel you should not have been charged for a particular service and so on. These matters, while important to you, can be resolved if the parties are willing to listen and are reasonable. If, however, after a reasonable time the grievance remains unresolved you should put it in writing and send it to the Principal.

3. On receiving the written complaint the Principal should within a reasonable time, say 7 days, decide on the action that will follow:-
(a) The Principal will send a copy of your complaint to the other party seeking their written response. This is to be fair to the other party by giving them the opportunity to have their say.

(b) On receipt of the response from the other party the Principal may adopt one of the following courses of action.

(i) Chair a meeting of the parties with a view to mediate OR
(ii) Further investigate the complaint OR
(iii) With the agreement of both parties ask an independent body to mediate, or arbitrate the matter OR
(iv) Take other appropriate action.
4. At the conclusion of the process you will be given a response in writing. It should be pointed out that you have Legal Processes under NSW or Federal Laws seeking redress. However most grievances can be satisfied within the Academy which we believe is in the long run usually a mutually successful process.

21. **APPEALS MECHANISM**

Course participants must appeal in writing to the Executive Director stating their case. The Executive Director or a person deputised by the Executive Director will approach the relevant Academy personnel on the course participant’s behalf. The Academy personnel will be asked to consider the course participant’s case and report back to the Executive Director or the deputy with results of the assessment.

The Executive Director will then advise the course participant of the results. Should the course participant not be satisfied with the result, the Academy Board will be asked to convene a panel of senior staff members to consider the case. If the course participant is still not satisfied with the result, an independent panel of mediators will be constructed to consider the issues at stake. This is the final point of appeal.
22. PROFESSIONAL HYPNOTHERAPY - TRAINING PATHWAY

The Academy offers different levels of training in Clinical Hypnotherapy. The qualifications and the modules (and pre-requisites if any) which go towards the qualifications are summarised on the following pages.

OVERVIEW: PROFESSIONAL HYPNOTHERAPY - TRAINING PATHWAY

Certificate IV in Clinical Hypnotherapy (Reg 91524NSW)
Prerequisite – None. Also see Item 5 in this Handbook “Access, Equity and Participation for Entry Requirements” and Item 23 “Summaries of Modules – Professional Hypnotherapy Training”

Core Modules:
- Hypnosis, Counselling and Therapy (HCT401)
- Psychology for Hypnotherapy A (PSY401)
- Psychology for Hypnotherapy B (PSY402)
- Medical Sciences in Hypnotherapy (MSH401)
- Counselling for Hypnotherapy A (COU401)
- Counselling for Hypnotherapy B (COU402)
- Therapeutic Applications (THAP401)
- Practical Workshop (PW401)
- Practical Workshop (PW402)
- Pre Clinic Therapeutic Applications (PCTHA401) Must be completed immediately before Intern Clinic.

Intern Clinic (IC401)

Electives (2) Must do one from each module as follows
- Hypnoanalytical Techniques (HT401) OR Hypnoanalytical Techniques (HT402)
- NLP in Hypnotherapy (NLP401) OR NLP in Hypnotherapy (NLP402)

Diploma of Clinical Hypnotherapy (Reg 91525NSW)
Prerequisite – Certificate IV in Clinical Hypnotherapy (91524NSW) or equivalent.
Also see Item 5 in this Handbook “Access, Equity and Participation for Entry Requirements”

Core Modules:
- Ethics Legal & Business Issues (ELBI501)
- Advanced Therapeutic Applications (ADVTAP501)
- Advanced Therapeutic Applications (ADVTAP502)
- Advanced Therapeutic Applications (ADVTAP503)
- Advanced Practical Workshops (ADVPW501)
- Advanced Practical Workshops (ADVPW502)
- Advanced Practical Workshops (ADVPW503)
- Intern Clinic (SNRIC501)
- Intern Clinic (SNRIC502)
- Intern Clinic (SNRIC503)

Electives (3) Must do whichever not done previously
- Hypnoanalytical Techniques (HT501) OR Hypnoanalytical Techniques (HT502)
- NLP in Hypnotherapy (NLP501) OR NLP in Hypnotherapy (NLP502)
- TA/Gestalt in Hypnotherapy (TAG501) OR TA & Gestalt in Hypnotherapy (TAG502)

Advanced Diploma of Clinical Hypnotherapy (Reg 91526NSW)
Prerequisite – Diploma of Clinical Hypnotherapy (91525NSW) or equivalent.
Also see Item 5 in this Handbook “Access, Equity and Participation for Entry Requirements”

Core Modules:
- Professional Development (PD601)
- Professional Development (PD602)
- Intern Mentorship Practical Workshops (PD603)
- Intern Mentorship Practical Workshops (PD604)
- Research Methodology (RM601)
- Teaching Self Hypnosis (TSH601)
- Project (PRO601)

Elective (1) Must do whichever not done previously
- TA & Gestalt (TAG601) OR TA & Gestalt (TAG602)
23. SUMMARIES OF MODULES – PROFESSIONAL HYPNOTHERAPY TRAINING

All module hours given are nominal or approximate.

The term “private directed study” refers to work that the Academy has directed you to do. For example, the Hypnosis, Counselling and Therapy module directs you to read specific chapters of a textbook and then directs you to complete specific exercises based on that reading.

Unless otherwise stated, and taking into account the information contained under “6. Enrolments and Registration Choices” in this Handbook, coursework can be undertaken as a part time workload or a full time workload and except for the Practical Workshop modules and the Therapeutic Applications modules, all modules are conducted via on-line learning.

Certificate IV in Clinical Hypnotherapy (91254NSW)

- **Hypnosis, Counselling and Therapy HCT401**
  Nominal Module Hours: 108

Aim: To impart understanding of the basic concepts and principles of hypnosis and the different forms and methods of hypnotic suggestion. It is expected that you will be able to explain the basic concepts and principles of hypnosis and, working within ethical guidelines, to effectively guide a person into hypnosis, give hypnotic suggestions as required for specified issues and to bring the person out of hypnosis. It is also expected that you will know and be able to briefly outline the concept and some specific techniques of hypnoanalysis.

Prerequisites: None

Materials: Textbooks. Computer, e-mail and internet.

Assessment: Assignments and Assessment. If student is unable to attend in-house, the final assessment requires presentation of an audio and/or video session accompanied by a verbatim transcript.

RPL: Available.

Award: Statement of Attainment.

- **Psychology for Hypnotherapy PSY401**
- **Psychology for Hypnotherapy PSY402**
  Nominal Module Hours: 42 hours each module

(Both modules are required for the Certificate IV in Clinical Hypnotherapy)

Aim: To enable understanding of how the psychological frameworks are associated with the practice of Clinical Hypnotherapy. For example you will be expected to be able to explain the concept of psychology and to outline the major theoretical frameworks; you will also be expected to identify the various specific psychological disorders in terms of behaviour.

Prerequisites: Module: Hypnosis, Counselling & Therapy (HCT401) or equivalent

Co requisites: None

Topics: Include and may vary – Abnormality, Biochemical Model, Psychodynamic and Existentialist Approaches, Phobic, Panic and the Anxiety Disorders, Obsession, Hysteria, and Dissociation, Health Psychology, Personality Disorders, Psychoactive Substance Use Disorder, The Schizophrenias, Depression, Suicide, Disorders of the Nervous System and Pathology, Childhood Disorders, Mental Retardation, Law and Politics of Abnormality.

Materials: Textbooks. Computer, e-mail and internet.

Assessment: Exam.

RPL: Available.

Award: Statement of Attainment.
## Hypnoanalytical Techniques HT401 OR Hypnoanalytical Techniques HT402
(Only one module required for the Certificate IV in Clinical Hypnotherapy)

<table>
<thead>
<tr>
<th>Nominal Module Hours: 42</th>
</tr>
</thead>
</table>

**Aim:** To provide the knowledge and skills required to determine the factors which underlie presenting symptoms. For example, you will be expected to demonstrate how to use Hypnoanalytical Techniques to assist towards the uncovering and resolution of a client’s underlying problem.

**Prerequisites:** Module: Hypnosis, Counselling & Therapy (HCT401) or equivalent

**Co requisites:** None

**Hypnoanalytical Techniques HT401 Topics:** Include and may vary - Hypnoanalytical Concepts, Hypnoanalytical Techniques - Progression, Regression and Automatic Writing, Therapy process, Leading, Hypnotherapy and Cognitive Behavioural Therapy.

**Hypnoanalytical Techniques HT402 Topics:** Hypnoanalytical Concepts, Hypnoanalytical Techniques - Ideomotor Questioning and Dream Therapy and the Therapy process

**Materials:** Textbooks. Computer, e-mail and internet..

**Assessment:** Exam.

**RPL:** Available.

**Award:** Statement of Attainment.

## NLP in Hypnotherapy NLP401 OR NLP in Hypnotherapy NLP402
(Only one module required for the Certificate IV in Clinical Hypnotherapy)

<table>
<thead>
<tr>
<th>Nominal Module Hours: 42</th>
</tr>
</thead>
</table>

**Aim:** To provide selected concepts and techniques from Neuro-Linguistic Programming (NLP). You will be expected to apply certain specific NLP techniques in the hypnotherapeutic situation as well as show your understanding of principles universal to all psychological therapies.

**Prerequisites:** Module: Hypnosis, Counselling & Therapy (HCT401) or equivalent

**Co requisite:** None.

**NLP in Hypnotherapy NLP401 Topics:** Include and may vary - Representational System, Submodalities, Time Line Therapy, Accessing Cues, Reframing, Metaphors and Time Line Therapy and Selection/Avoidance Criteria.

**NLP in Hypnotherapy NLP402 Topics:** Include and may vary - Meta Model, Reframing, Anchoring and Collapsing Anchors, Ericksonian Concepts and Techniques, Pure Process and Selection/Avoidance Criteria.

**Materials:** Computer, e-mail and internet..

**Assessment:** Exam.

**RPL:** Available.

**Award:** Statement of Attainment.

## Medical Sciences in Hypnotherapy MSH401

<table>
<thead>
<tr>
<th>Nominal Module Hours: 72</th>
</tr>
</thead>
</table>

**Aim:** The purpose of this module is to have the participants achieve the knowledge and skills to enable them to describe the structure and function of the body, the disturbances in structure and function and the relationship of hypnotherapy to those disturbances.

**Prerequisites:** Module: Hypnosis, Counselling & Therapy (HCT401) or equivalent

**Co requisites:** None

**Topics:** Include and may vary: Terminology, Basic Anatomy and Physiology, Basic Pathological Processes, Hypnotherapy and disorders of the Body’s systems, Psychopharmacology, Links between mental, emotional and physiological processes.

**Materials:** Textbooks. Computer, e-mail and internet..

**Assessment:** Exam.

**RPL:** Available.

**Award:** Statement of Attainment.
Counselling in Hypnotherapy COU401 and
Counselling in Hypnotherapy COU402
(Both modules are required for the Certificate IV in Clinical Hypnotherapy)
Nominal Module Hours: 84 (both modules)

Aim: Participants are provided with the knowledge to develop the skills that will enable them to demonstrate competent therapist communication in the consultation process. For example, some of the things you will be expected to do will be to explain the fundamental principles of counselling, and to show your understanding of the role of hypnotherapy within a counselling framework; demonstrate appropriate techniques from the major Counselling Models; show your understanding of the necessity of considering social parameters concerning gender and ethnic issues; why therapists should identify and deal with their own issues.

Prerequisites: Module: Hypnosis, Counselling & Therapy (HCT401) or equivalent
Co requisites: None

Counselling in Hypnotherapy COU401Topics: Include and may vary: Principles of counselling, responses to feelings from a counselling model, understanding ethical considerations, counselling techniques, multicultural approach, support the protection of children and young people, Report indications of possible risk of harm to children.

Counselling in Hypnotherapy COU402Topics: Include and may vary: Principles of counselling, major counselling models, qualitative counselling techniques, stress management model, client contract, and the use of perspective in counselling.

Materials: Textbooks. Computer, e-mail and internet.
Assessment: Exam(s).
RPL: Available.
Award: Statement of Attainment.

Therapeutic Applications THAP401
Nominal Module Hours: 54

Aim: To provide the knowledge and skills to demonstrate competent therapeutic techniques in a simulated clinical situation of approximately thirty minutes duration. You will be expected to learn how to apply the techniques learned in other modules across a broad range of unpredictable presenting problems. At various times during these modules you will have the opportunity to be a therapist (whilst being mentored) to another participant, deal with your own issues as the client and be an observer. It is expected that each student will take the roles of Therapist, Client, Mentor and Observer at least once in each module.

Prerequisites: Module: Hypnosis, Counselling & Therapy (HCT401) or equivalent
Co-requisites All other modules (excepting Pre-Clinic Therapeutic Applications and Intern Clinic) in the Certificate IV in Clinical Hypnotherapy (Reg 91524NSW)

Topics: Include and may vary – Application of Hypnotherapeutic Techniques, Psychodrama, Free Association, Client Centred Therapy, Cognitive Behavioural Therapy, Development of Therapy Strategy, Hypnoanalytical Techniques.

Materials: Computer, e-mail and internet.
Assessment: Practical
RPL: Available.
Award: Statement of Attainment

Practical Workshop PW401
Practical Workshop PW402
Both modules are required for the Certificate IV in Clinical Hypnotherapy
Nominal Module Hours: 24 (12 each)

Aim: To provide the additional opportunity to apply the integrated skills and knowledge being gained from modules in the Certificate IV course, in a practical simulated situation. This module provides students with a combination of resources unavailable elsewhere. These resources are: a place to practice, a specified practice time, people to practice with, a safe environment to practice, access to assistance if required, feedback & mentoring at the end of each session and the opportunity for practical demonstration of a technique(s) by the mentor.
**Prerequisites:** Module: *Hypnosis, Counselling & Therapy (HCT401)* or equivalent

**Co requisites:** Psychology for Hypnotherapy (PSY401 & 402), NLP for Hypnotherapy (NLP401 or 402), Hypnoanalytical Techniques (HT401 or 402), Medical Sciences in Hypnotherapy (MSH401), Counselling for Hypnotherapy (COU401 & 402), Practical Workshops (PW402), Therapeutic Applications (THAP401).

**Topics:** Practical application of all topics covered in course modules.

**Materials:** None

**Assessment:** Self Assessment and Peer Feedback

**RPL:** Not available

**Award:** Statement of Attainment

---

### Pre-Clinic Therapeutic Applications PCTHAP 401

**Nominal Module Hours:** 54

**Note:** This section can only be undertaken immediately prior to commencing the Intern Clinic module. This means that you should have completed, all other modules from the Certificate IV in Clinical Hypnotherapy (or be in the final stages) before undertaking Pre-Clinic Therapeutic Applications.

**Aim:** To provide the knowledge and skills to demonstrate competent therapeutic techniques in a simulated clinical situation(s) of approximately thirty minutes duration. You will be expected to demonstrate how to apply specific techniques learned in other modules across a broad range of unpredictable presenting problems. At various times during these modules you will have the opportunity to be a therapist (whilst being mentored) to another participant, deal with your own issues as the client and be an observer. It is expected that each student will take the roles of Therapist, Client, Mentor and Observer at least once in each module.

**Prerequisites:** All other modules from the *Certificate IV in Clinical Hypnotherapy* (91524NSW)

**Co-requisites:** None.

**Topics:** Practical application of all topics covered in course modules

**Materials:** Computer, e-mail and internet.

**Assessment:** Practical

**RPL:** Available.

**Award:** Statement of Attainment

---

### Intern Clinic IC401

**Nominal Module Hours:** 49

**Intern Clinic consist of a nominal 20 client consultation hours.** The requirements for competency for this module are successfully completing the module AND achieving the prescribed competencies. If the prescribed competencies are not achieved within the nominal 49 hours, it follows that those nominal hours will total more than 49.

The Intern must have HLTFA311A Apply First Aid certificate or equivalent. The Academy does not supply this training.

A Certificate of Currency is required as proof of current Professional Indemnity Insurance before commencing this module and will be required again on 1st October of any year in which the Intern is undertaking this module.

If the student does not have Professional Indemnity Insurance the Academy can join the student to its Professional Indemnity Insurance for the duration of the required 20 consultation hours or 3 months, whichever comes first. Some basic conditions apply as per the module notes.

**Aim:** to apply the knowledge and techniques of clinical hypnotherapy in a supervised clinical environment.

You will be expected to demonstrate:

- Appropriate Counselling Skills;
- Assessing a Client’s Suitability for Hypnotherapy;
- History Taking Skills;
- Formulating and Implementing Appropriate Therapeutic Structure
- Formulating and Implementing Appropriate Hypnotherapeutic Structures;
- Applying chosen hypnotherapeutic structures
- Assessing the Effectiveness of the Hypnotherapeutic Techniques;
- Determining and implementing structures for appropriate ongoing therapy;
- Client Record Keeping;
- Communicating with other Health Professionals,
- Implementing marketing and promotional activities.
Prerequisites: All other modules from Certificate IV in Clinical Hypnotherapy (Reg 91524NSW) or equivalent.

Co-requisites: None.

The Intern should elect a supervisor or supervisors who will meet the standards set by the Academy. Please contact Administration for more detailed information and instructions about this.

Topics: Practical application of all topics in all modules preceding Intern Clinic module.

Materials: None

Assessment: Regular Supervision Sessions with Supervisor, Peer Feedback. From time to time (as determined by the Academy) the Intern will be supervised in-session with any one or more of their clients. If the intern is unable to attend the Academy other arrangements must be made for this type of Supervision Session.

RPL: Not available.

Award: Statement of Attainment

It is important that the student enrol into IC401 within 9 weeks after successfully completing PCTHAP401 Pre-Clinic Therapeutic Applications. Failure to do so may mean that the PCTHAP401 will need to be undertaken again before enrolling into IC401.

Additional Information If the facilities are available, interns may be able to complete all or some of this module in-house. Please check with the Academy.

Before undertaking this module, interns are required to read and sign the Rules of Clinic document. Please ensure that you read this document before you enrol. Like all policy and procedure, this is subject to future change if necessary but reading it will give you a clearer perspective of what is required of people undertaking this module.

The Academy distributes its AIC and LIC clients equally to Certificate IV Interns who are completing this module in-house, regardless of whether or not those Interns are also successfully sourcing their own clients through their practice management strategies.

Certificate IV Interns who are completing this module in-house do not receive the client fees.

Case study supervision is usually conducted via Skype (or some other electronic means) between the hours of 9am to 5pm (Sydney time), Monday to Friday inclusive.

Case Study Supervision must be attended.

Clinical consultation hours credit will be given only for case studies that are written up and presented to the Academy by the stipulated date and the Intern must be in attendance for that Case Study Supervision. In other words, if the Intern presents his or her case histories to the Academy by the stipulated date (currently a week before the Case Study Supervision Session), but fails to attend the Case Supervision Session, no hours will be credited.

The Academy may select any case study for review and supervision at any time therefore the Intern's own records need to be always up to date.
**Diploma of Clinical Hypnotherapy (91525NSW)**

- **Ethics, Legal and Business Issues ELBI501**

  Nominal Module Hours: 42

  **Aim:** To develop an understanding of the underlying professional ethical issues and legal issues arising during the practice of clinical hypnotherapy and to establish a basic framework upon which to build and develop a fuller practical appreciation of the ethical issues. You will be expected to develop the knowledge and skills to enable you to establish a clinical practice which reflects the professional, business and ethical standards required of health professionals.

  **Prerequisites:** Certificate IV in Clinical Hypnotherapy (91524NSW) or equivalent

  **Co-requisites:** None

  **Topics:** Include and may vary: Starting and maintaining a practice, general office procedures, maintenance and equipment, Professional Networking, Advertising, Conducting Consultations, History Taking, Ethics, establishing a marketing strategy in practical terms.

  **Materials:** Textbooks. Computer, e-mail and internet.

  **Assessment:** Assignment(s).

  **RPL:** Available.

  **Award:** Statement of Attainment.

- **Advanced Therapeutic Applications ADVTHAP501**
- **Advanced Therapeutic Applications ADVTHAP502**
- **Advanced Therapeutic Applications ADVTHAP503**

  Nominal Module Hours: 126

  **Aim:** To provide the additional opportunity to apply the integrated skills and knowledge being gained from modules in the Diploma of Clinical Hypnotherapy course, in a practical simulated situation. This module provides students with a combination of resources unavailable elsewhere. These resources are: a place to practice, a specified practice time, people to practice with, a safe environment to practice, access to assistance if required, feedback & mentoring at the end of each session and the opportunity for practical demonstration of a technique(s) by the mentor.

  **Prerequisites:** Certificate IV in Clinical Hypnotherapy (91524NSW) or equivalent

  **Co-requisites:** All other units in the Diploma of Clinical Hypnotherapy (91525NSW).

  **Topics:** Practical application of all topics covered in course modules.

  **Materials:** None

  **Assessment:** Self Assessment and Peer Feedback

  **RPL:** Not available

  **Award:** Statement of Attainment

- **Advanced Practical Workshop PW501**
- **Advanced Practical Workshop PW502**
- **Advanced Practical Workshop PW503**

  Nominal Module Hours: 66

  **Aim:** To provide the additional opportunity to apply the skills and knowledge gained from all the modules in the Certificate IV course and the Diploma course, in a practical simulated situation.

  **Prerequisites:** Certificate IV in Clinical Hypnotherapy (91524NSW) or equivalent

  **Co-requisites:** All other units in the Diploma of Clinical Hypnotherapy (91525NSW).

  **Topics:** Practical application of all topics in modules from Diploma of Clinical Hypnotherapy (91525NSW).

  **Materials:** None

  **Assessment:** Self Assessment and Peer Feedback

  **RPL:** Available

  **Award:** Statement of Attainment
Aim: To provide participants with the necessary knowledge and skills to select specific techniques and concepts from the modalities of Transactional Analysis and Gestalt and apply them in the hypnotherapeutic situation.

Prerequisites: Certificate IV in Clinical Hypnotherapy (91524NSW) or equivalent

Co requisites: None.

TA/Gestalt in Hypnotherapy TAG501 Topics: Includes and may vary Minscript, Drivers and Life Script, Empty Chair, Hypnotic Empty Chair and Figure and Ground, Strengths and Weaknesses of each Theory and Technique.

TA/Gestalt in Hypnotherapy TAG502 Topics: Includes and may vary Reparenting, and Finding the Ins’, Gestalt Dream Therapy and When to Use Why, Strengths and Weaknesses of each Theory and Technique.

Materials: Computer, e-mail and internet.

Assessment: Exam.

RPL: Available.

Award: Statement of Attainment.

Senior Intern Clinic SNR501
Senior Intern Clinic SNR502
Senior Intern Clinic SNR503

Nominal Module Hours: 228 | Face to Face 18 | Private Directed Study 90 | Consultation Hrs. 120

The requirements for competency are completion of all sections AND achieving the prescribed competencies.

A Certificate of Currency is required as proof of current Professional Indemnity Insurance before commencing this module and will be required again on 1st October of any year in which the Intern is undertaking this module.

Professional Indemnity Insurance is not provided by the Academy and must be acquired from an insurance provider at the course participant's expense.

A. Clinic Consultation Hours:

There are three (3) options available to Senior Interns:

Option 1) This option is subject to variables such as availability of rooms. The Academy does not guarantee that this option will be available to all Senior Interns at all times. Senior Interns may complete the entire 120 clinic consultation hours in the Academy's clinics provided that the facilities are available at the time.

NOTE: The fee (see Prospectus for Other Fees/Charges under heading Additional Senior Intern Clinic Fees). This fee is paid in instalments. From time to time the Senior Intern will be required to undertake a case history assessment and this will involve a supervisor sitting in on a session.

Option 2) Senior Interns complete their clinic hours outside of the Academy in their own practice. Case study supervisions will be held monthly via Skype (or by some other electronic means). From time to time the Senior Intern will be required to undertake a case study assessment and this will involve recording a consultation for assessment.

Option 3) The Senior Intern may consult clients both externally and on the Academy's premises (availability of facilities permitting). The Senior Intern will pay the prescribed clinic fee (see Prospectus for Other Fees/Charges under heading Additional Senior Intern Clinic Fees) to book the consulting room for each client they consult at the Academy. This fee applies regardless of whether the Academy or the Senior Intern sourced the client. The Clinic Fee is payable at the time of consultation. Should the client fail to keep the appointment the Senior Intern will not have to pay the clinic fee. From time to time the Senior Intern will be required to undertake a case history assessment and this may be via a recorded consultation or by bringing a client to the Academy.
B. Experiential Hours
From time to time Senior Interns may have the opportunity to sit in on therapy sessions conducted by other Interns and/or therapists and then to record their observations of that session. Such observations will be required to be presented at Supervision sessions in the form of brief written notes. Remember, it is the therapist’s techniques and therapeutic style being observed, not the client, and the notes should reflect this. Neither should the notes be a judgment, or critique or opinion on the therapist and/or his or her therapy. It is important that the client has signed off on a consent form that it is OK for you to observe – be aware – some clients will forbid the taking of notes by an observer and you will have to rely on your memory.

Please note that Experiential Hours for observation of therapy sessions will be given only if observation notes are written up, accompanied by a client consent form and presented to the Academy at least 1 week before the scheduled Supervision session and only if you are in attendance at the supervision session. In other words if the Senior Intern gives his or her observation notes to the Academy within the time stipulated date but fails to attend the Supervision Session, no hours will be credited.

C. Clinic Elective Hours
Clinic Elective hours are credited to those activities which directly relate to the practice of clinical hypnotherapy or practice management but do not necessarily relate directly to the course.

Summary – Senior Intern Clinic
The following applies to all Senior Interns without exception:

- All written up case studies, observer's notes and promotional/marketing activities must be submitted to the Academy up to 1 week before the scheduled Supervision, which is usually conducted by Skype (or other electronic means);
- The Senior Intern must attend all scheduled Case Study Supervisions. Clinical consultation hours will be credited only for case studies that are written up and presented to the Academy by the stipulated date.

In other words, if the Senior Intern gives his or her case studies to the Academy by the stipulated date (currently the week prior to the supervision session), but fails to attend the Supervision Session no hours will be credited.

- All written up case studies, observer's notes and promotional/marketing activities which are presented at case study supervision become the property of the Academy. This does not mean that the Academy owns your intellectual property. It means that the Academy owns the documentation that you provide.
- The Senior Intern is responsible for keeping records and details of the hours being claimed and ensuring that they are presented to the Academy on time..
- The Academy can select any case study, any observation notes and any practice management activity for review and supervision at any time, therefore the Senior Intern's own records must be always up to date.
- Clients who attend the Academy for consultations pay the Academy's prescribed fees to the Academy. This includes clients of Senior Interns who may have reason to fulfil their case study assessment requirements in-house.
- Senior Interns who see clients in the Academy clinic, for any reason, including fulfilling the case study assessment requirements, do not receive the client fees.
Advanced Diploma of Clinical Hypnotherapy (Reg 91256NSW)

- **Teaching Self Hypnosis TSH601**
  Nominal Module Hours: 42
  
  **Aim:** To provide the knowledge and skills to enable assessment and management of a client’s need for Self Hypnosis, to determine the specific specialised techniques best suited to the client, to develop and manage a treatment plan incorporating the specialised techniques and to effectively teach the client those techniques. You will be expected to explain the philosophy behind teaching a client self hypnosis, to show that you can construct a treatment plan incorporating self hypnosis and implement that treatment plan giving consideration to the changing requirements of your client.

  **Prerequisites:** Diploma of Clinical Hypnotherapy (91525NSW) or equivalent
  **Co requisites:** None

  **Topics:** Include and may vary - Concept of self hypnosis, Conditioning, Imagination, Suggestion, Induction and Deepening, Time Distortion, Waking Hypnosis, Controlling Pain, Healing and Bleeding, Personal Therapy.

  **Materials:** Computer, e-mail and internet
  **Assessment:** Assignment
  **RPL:** Available
  **Award:** Statement of Attainment

- **Research Methodology RM601**
  Nominal Module Hours: 42
  
  **Aim:** To provide an understanding of basic research methodology to enable participants to identify, analyse and evaluate information for planning and research purposes in the field of clinical hypnotherapy.

  **Prerequisites:** Diploma of Clinical Hypnotherapy (91525NSW) or equivalent
  **Co requisites:** None

  **Topics:** Includes but not restricted to: planning a research project, types of projects, data collection and analysis, sourcing information, preparing a case study, report writing.

  **Materials:** Computer, e-mail and internet
  **Assessment:** Written exam
  **RPL:** Available
  **Award:** Statement of Attainment

- **Professional Development PD601**
- **Professional Development PD602**
- **Professional Development PD603**
- **Professional Development PD604**

  Nominal Module Hours: 256
  
  **Aim:** To refine professional skills by presenting case histories and providing appropriate peer support case management feedback. To develop case management knowledge and skills to observe, monitor techniques, provide effective appropriate feedback, mentoring and demonstration of relevant techniques in:
  - Therapeutic Applications
  - Practical Workshops
  - Advanced Therapeutic Applications
  - Advanced Practical Workshops
  and other workshops/modules as appropriate.

  **Prerequisites:** All modules from Diploma of Clinical Hypnotherapy (91525NSW) or equivalent.
  **Co-requisites:** All other modules in the Advanced Diploma of Clinical Hypnotherapy (91526NSW).

  **Topics:** Stating and respecting boundaries (personal and group) Impartiality, Caring, Respect of self and others cultural and religious beliefs, Confidentiality, Constructive Criticism.

  **Materials:** None
  **Assessment:** Practical demonstration, interview.
  **RPL:** Available
  **Award:** Statement of Attainment
■ Project PRO601
Nominal Module Hours: 118

Aim: To bring together all parts of the course. The participants will have the opportunity to negotiate a project and demonstrate the ability to synthesise skills, knowledge, clinical experience and to communicate their findings. The Project is to be 3000 – 5000 words unless another method of presenting the project has been agreed to by the Academy.

Note: The Academy may request to keep a copy of your project work in its library. Copyright remains with the author of the Project.

Co requisites: All other modules in the Advanced Diploma of Clinical Hypnotherapy (91526NSW)

Topics: The topic is negotiated with the Academy then the participant must submit a research program.

Materials: This is determined by method of presentation.
Assessment: Project material, discussion. An external assessor may also be involved to supply specialist knowledge.
RPL: Available.
Award: Statement of Attainment

■ TA/Gestalt in Hypnotherapy TAG601 OR
■ TA/Gestalt in Hypnotherapy TAG602
Nominal Module Hours: 84 (Both)

Aim: To provide participants with the necessary knowledge and skills to select specific techniques and concepts from the modalities of Transactional Analysis and Gestalt and apply them in the hypnotherapeutic situation.

Prerequisites: Diploma of Hypnotherapy (91525NSW) or equivalent
Co requisites: All other modules in the Advanced Diploma of Clinical Hypnotherapy (91526NSW)
24. SUMMARIES OF MODULES ADVANCED PRACTITIONER COURSES

Unless otherwise mentioned, and taking into account the information contained under “6. Enrolments and Registration Choices” in this Handbook all modules may be undertaken as either a Full Time workload or as a Part Time Workload.

Advanced Practitioner Certificate in Clinical Hypnotherapy

Module: CPDHCT401 Hypnosis, Counselling and Therapy
Nominal Module Hours: 112

Aim: To impart understanding of the basic concepts and principles of hypnosis and the different forms and methods of hypnotic suggestion. It is expected that you will be able to explain the basic concepts and principles of hypnosis and, working within ethical guidelines, to effectively guide a person into hypnosis, give hypnotic suggestions as required for specified issues and to bring the person out of hypnosis. It is also expected that you will know and be able to briefly outline the concept and some specific techniques of hypnoanalysis.

Prerequisites: An existing undergraduate qualification in professional skills in a health practitioner or allied field.
Co-requisites: None.

<table>
<thead>
<tr>
<th>Topics</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hypnotic Theory for the Health Professional</td>
</tr>
<tr>
<td>Explains various beliefs and concepts within hypnosis.</td>
</tr>
<tr>
<td>Susceptibility Techniques</td>
</tr>
<tr>
<td>How to assess and raise a client's responsiveness in terms of their ability to enter the hypnotic state by using certain pre-hypnotic techniques.</td>
</tr>
<tr>
<td>Induction Procedures</td>
</tr>
<tr>
<td>Techniques used to easily guide a client into the hypnotic state. The course participant begins to use his or her own creativity and is taught to construct their own techniques spontaneously.</td>
</tr>
<tr>
<td>Deepening Procedures</td>
</tr>
<tr>
<td>Techniques used to enhance the hypnotic state. Once again, course participants are taught to use their own resources.</td>
</tr>
<tr>
<td>Suggestion</td>
</tr>
<tr>
<td>Focuses on various types of hypnotic suggestions, their structures and usage and the need to construct suggestions to suit the individual subject or client</td>
</tr>
<tr>
<td>Practical</td>
</tr>
<tr>
<td>Course participants are required to use the various techniques in class to build their basic skills.</td>
</tr>
<tr>
<td>Hypnoanalytical Techniques</td>
</tr>
<tr>
<td>Outlines concepts of basic techniques of Automatic Writing, Regression, Dream Therapy and Ideomotor Questioning. These techniques are used to trace problems to the original cause. Once the cause has been found the client is assisted in its resolution.</td>
</tr>
<tr>
<td>Self Hypnosis</td>
</tr>
<tr>
<td>This technique is in essence the same as deep relaxation or meditation. The extra potency comes from the concepts and procedures used.</td>
</tr>
<tr>
<td>Transactional Analysis</td>
</tr>
<tr>
<td>The use of various therapeutic approaches in conjunction with hypnotherapy is vital for the professional Clinical Hypnotherapist. Transactional Analysis is a simple structure relating to the individual's personality.</td>
</tr>
<tr>
<td>Gestalt</td>
</tr>
<tr>
<td>This therapeutic approach is based on existence, the 'wholeness' and integration of the individual.</td>
</tr>
<tr>
<td>Ethics and Safeguards</td>
</tr>
<tr>
<td>It is essential that the course participant with limited training knows and understands the safeguards and appropriate ethical behaviour to which they should adhere.</td>
</tr>
<tr>
<td>Practical Workshops</td>
</tr>
<tr>
<td>These workshops are designed to enable the Certificate level course participants to practise their skills and further develop their techniques. The workshops are monitored by Interns.</td>
</tr>
<tr>
<td>Clinical Approach to Conditions in an existing Health Practice</td>
</tr>
<tr>
<td>Focuses on hypnotic suggestions for conditions that may present in a health practice.</td>
</tr>

Materials: Textbooks. Computer, e-mail and internet.
Assessment: Assignments and Assessment. If student is unable to attend in-house, the final assessment requires presentation of an audio and/or video session accompanied by a verbatim transcript.
RPL: Available.
Advanced Practitioner Diploma of Clinical Hypnotherapy

- Ethics, Legal and Business Issues CPDELBI501
  Nominal Module Hours: 42

Aim: To develop an understanding of the underlying professional ethical issues and legal issues arising during the practice of clinical hypnotherapy and to establish a basic framework upon which to build and develop a fuller practical appreciation of the ethical issues. This module also provides the course participant with knowledge and skills to enable them to establish a clinical practice which reflects the professional, business and ethical standards required of health professionals.

Prerequisites: Advanced Practitioner Certificate in Clinical Hypnotherapy or equivalent.
Co-requisites: None.

Materials: Textbooks. Computer, e-mail and internet.
Assessment: Assignment.
RPL: Available.
Award: Statement of Attainment.

- Psychology for the Health Professional CPDPSY401
  Nominal Module Hours: 84 (both)

- Psychology for the Health Professional CPDPSY402

The module sensitises participants to the area of psychology and provides an awareness of psychology. It also enables participants to understand how the psychological frameworks are associated with the practice of Clinical Hypnotherapy.

Prerequisites: Advanced Practitioner Certificate in Clinical Hypnotherapy or equivalent.
Co-requisites: None

Materials: Textbooks. Computer, e-mail and internet.
Assessment: Written exam.
RPL: Available.
Award: Statement of Attainment.

- Self Hypnosis CPDTSH601
  Nominal Module Hours: 36

Participants acquire the knowledge and skills to assess their client’s need for Self Hypnosis, to determine the specific techniques best suited to their client’s needs and to teach the client those techniques.

The module sensitises participants to the area of psychology and provides an awareness of psychology. It also enables participants to understand how the psychological frameworks are associated with the practice of Clinical Hypnotherapy.

Prerequisites: Advanced Practitioner Certificate in Clinical Hypnotherapy or equivalent.
Co-requisites: None

Materials: Textbooks. Computer, e-mail and internet.
Assessment: Assignment.
RPL: Available.
Award: Statement of Attainment.

- Medical Sciences in Hypnotherapy CPDMSH401
  Nominal Module Hours: 72

The purpose of this module is to have the participants achieve the knowledge and skills to enable them to describe the structure and function of the body, the disturbances in structure and function and the relationship of hypnotherapy to those disturbances. This module contains a directed self study component.
The module sensitises participants to the area of psychology and provides an awareness of psychology. It also enables participants to understand how the psychological frameworks are associated with the practice of Clinical Hypnotherapy. This module contains a directed self study component.

**Prerequisites:** Advanced Practitioner Certificate in Clinical Hypnotherapy or equivalent.

**Co-requisites:** None.

**Materials:** Textbooks. Computer, e-mail and internet.

**Assessment:** Written exam.

**RPL:** Available.

**Award:** Statement of Attainment.

- **Counselling for the Health Professional CPDCOU401**
- **Counselling for the Health Professional CPDCOU402**

**Nominal Module Hours:** 84 (both)

Participants are provided with the knowledge to develop the skills that will enable them to demonstrate competent therapist communication in the consultation process. This module contains a directed self study component.

The module sensitises participants to the area of psychology and provides an awareness of psychology. It also enables participants to understand how the psychological frameworks are associated with the practice of Clinical Hypnotherapy. This module contains a directed self study component.

**Prerequisites:** Advanced Practitioner Certificate in Clinical Hypnotherapy or equivalent.

**Co-requisites:** None.

**Materials:** Textbooks. Computer, e-mail and internet.

**Assessment:** Assignment.

**RPL:** Available.

**Award:** Statement of Attainment.

- **Therapeutic Applications for the Health Professional CPDADVTHAP501**

**Nominal Module Hours:** 42

Participants will learn how to apply the techniques across a broad range of unpredictable presenting problems. At various times during this module you will have the opportunity to be a therapist (under supervision) to another participant, deal with your own issues as the client and be an observer.  **NOTE: This module must be undertaken as the final module or concurrently with (an)other module as the final module.**

The module sensitises participants to the area of psychology and provides an awareness of psychology. It also enables participants to understand how the psychological frameworks are associated with the practice of Clinical Hypnotherapy. This module contains a directed self study component.

**Prerequisites:** Advanced Practitioner Certificate in Clinical Hypnotherapy or equivalent and all other modules in Advanced Practitioner Diploma of Clinical Hypnotherapy.

**Co-requisites:** None.

**Materials:** Textbooks. Computer, e-mail and internet.

**Assessment:** Practical.

**RPL:** Available.

**Award:** Statement of Attainment.
25. MASTER CLINICAL HYPNOTHERAPIST PROGRAM

Not to be confused with the concept or use of the term “Masters Degree” as used by universities. Only a University can award a Masters Degree. Yes, we do know that you know the difference between a Master Practitioner (in any field of endeavour) and a Masters Degree, but we are obliged to make the point clear to you. So, if you undertake this program, you are aiming to become a Master Clinical Hypnotherapist; you are not aiming to acquire a Masters Degree in Hypnotherapy.

This is the first qualification of its type. Whereas the aim of our other training is to teach specific techniques this program focuses on developing knowledge and skills to that of ‘Master Clinical Hypnotherapist’, either generally or in a specific aspect of Clinical Hypnotherapy.

The aim of the program is to:

- investigate conditions / theories /issues or other aspects relevant to the continuing development of the practice of Clinical Hypnotherapy
- extend and hone the professional skills of the Clinical Hypnotherapist.
- offer the opportunity to develop new skills in the profession of Clinical Hypnotherapy and allied areas.

The work involved will be a result of discussion and agreement between the Academy and the course participant.

Once the subject and nature of the work has been decided, the Academy will appoint a Supervisor to assist you or, if you wish to nominate a supervisor, you would need to present your reasons to the Academy for discussion with you and approval.

A thesis / project or equivalent on an agreed topic is required and two bound copies of this should be presented to the Academy for assessment.

The Academy requests that a copy be placed in the library for the benefit of future students. Copyright remains with you at all times and your work is protected by copyright law equally with any other publication in our library.
26. COUNSELLING - THE TRAINING PATHWAY

The Academy offers different levels of training in Counselling. The qualifications and the modules (and pre-requisites if any) are listed on the following pages.

**Certificate In Counselling**
Counselling (CPDCOU401)
Counselling (CPDCOU402)

**Diploma of Counselling**
Prerequisite – Certificate in Counselling or equivalent.

Psychology for Counselling (CPDPSY401)
Psychology for Counselling (CPDPSY402)
Ethics, Legal and Business Issues (CPDELBI501)
Counselling Applications (CPDTHAP401)
Practical Skills (CPDPW401)

Either one of the following modules:

<table>
<thead>
<tr>
<th>TA/Gestalt (CPDTAG501)</th>
<th>TA/Gestalt B (CPDTAG502)</th>
</tr>
</thead>
</table>

Either one of the following modules:

<table>
<thead>
<tr>
<th>NLP (CPDNLP501)</th>
<th>NLP (CPDNLP502)</th>
</tr>
</thead>
</table>

Hypnosis, Counselling & Therapy (CPDHCT401)
Pre Fieldwork Counselling Applications 1 (CPDPCTHAP401)
  This module must be completed immediately before undertaking Fieldwork module. You cannot do it earlier

Fieldwork (IC401)

If you have studied, or are currently undertaking the Clinical Hypnotherapy training you will be able to apply for RPL for some modules in the Counselling training. Please refer to 7. **Exemption/Recognition of Prior Learning (RPL)** in this handbook.
27. SUMMARIES OF MODULES IN THE COUNSELLING COURSES

Unless otherwise mentioned, and taking into account the information contained under “6. Enrolments and Registration Choices” in this Handbook all modules are available FT, PT, and/or DL.

Certificate in Counselling

- Counselling CPDCOU401
- Counselling CPDCOU402

Nominal Module Hours: 84 (Both)

Aim: To facilitate an understanding of and ability to apply basic counselling techniques. Some of the things you will be expected to do will be to explain the fundamental principles of counselling, demonstrate appropriate techniques from the major Counselling Models; show your understanding of the necessity of considering social parameters concerning gender and ethnic issues; why therapists should identify and deal with their own issues

Prerequisites: None
Co requisites: None

Topics: Includes but not restricted to: Principles of Counselling, Major Modes in Counselling, Goals of Counselling, Psychosis, Stress, Referring to other health professionals, Social constructs, Therapist Self Knowledge/Awareness, Client Centred Therapy, Multicultural Approach.

Materials: Textbooks. Computer, e-mail and internet.
Assessment: Assignment.
RPL: Available.
Award: Certificate in Counselling (Cert Couns). Statement of Attainment.

Diploma of Counselling

- Transactional Analysis & Gestalt (CPDTAG501) OR
- Transactional Analysis & Gestalt (CPDTAB502)

Nominal Module Hours: 42

Aim: To provide participants with the necessary knowledge and skills to select specific techniques and concepts from the modalities of Transactional Analysis and Gestalt and apply them in the counselling situation.

Prerequisites: Certificate in Counselling or equivalent.
Co requisites: None

Topics: Includes but not restricted to – Miniscripts, Lifescripts, Finding the “In’s”, Reparenting, Transactional Analysis, Gestalt Empty Chair & Dream Therapy Techniques, Selection and Avoidance Criteria.

Materials: Computer, e-mail and internet.
Assessment: Exam.
RPL: Available.
Award: Statement of Attainment.

- NLP in Counselling (CPDNLP501) OR
- NLP in Counselling (CPDNLP502)

Nominal Module Hours: 42

Aim: To provide selected concepts and techniques from Neuro-Linguistic Programming (NLP). You will be expected to apply certain specific NLP techniques in the counselling situation as well as show your understanding of principles universal to all psychological therapies.

Prerequisites: Certificate in Counselling or equivalent.
Co requisites: None

Materials: Computer, e-mail and internet.
Assessment: Exam.
RPL: Available.
Award: Statement of Attainment.

### Psychology in Counselling (CPDPSY401)
### Psychology in Counselling (CPDPSY402)
**Nominal Module Hours: 84 (Both)**

**Aim:** To enable understanding of how the psychological frameworks are associated with the practice of Counselling. For example you will be expected to be able to explain the concept of psychology and to outline the major theoretical frameworks; you will also be expected to identify the various specific psychological disorders in terms of behaviour.

**Prerequisites:** *Certificate in Counselling* or equivalent
**Co requisites:** None.

**Topics:** Include and may vary – Abnormality, Biochemical Model, Psychodynamic and Existentialist Approaches, Phobic, Panic and the Anxiety Disorders, Obsession, Hysteria, and Dissociation, Health Psychology, Personality Disorders, Psychoactive Substance Use Disorder, The Schizophrenias, Depression, Suicide, Disorders of the Nervous System and Pathology, Childhood Disorders, Mental Retardation, Law and Politics of Abnormality.

**Materials:** Textbooks. Computer, e-mail and internet.
**Assessment:** Exam.
**Award:** Statement of Attainment.

### Ethical, Legal and Business Issues (CPDELBI501)
**Nominal Module Hours: 42**

**Aim:** To develop an understanding of the underlying professional ethical issues and legal issues arising during the counselling practice and to establish a basic framework upon which to build and develop a fuller practical appreciation of the ethical issues. You will be expected to develop the knowledge and skills to enable you to establish a counselling practice which reflects the professional, business and ethical standards required of professional counsellors.

**Prerequisites:** *Certificate in Counselling* or equivalent.
**Co requisites:** None.

**Topics:** Include and may vary: Starting and maintaining a practice, general office procedures, maintenance and equipment, Professional Networking, Advertising, Conducting Consultations, History Taking, Ethics, establishing a marketing strategy in practical terms.

**Materials:** Textbooks. Computer, e-mail and internet.
**Assessment:** Assignment(s).
**Award:** Statement of Attainment.

### Counselling Applications (CPDTHAP401)
**Nominal Module Hours: 54**

### Pre-Fieldwork Counselling Applications (CPDPCTHAP401)
**Note:** Pre-Fieldwork Counselling Applications can only be undertaken immediately prior to commencing the Fieldwork. You will not be permitted to undertake it any earlier. You must also have successfully completed
**Nominal Module Hours: 54**

**Aim of Counselling Applications and Pre-Fieldwork Counselling Applications:** To provide the knowledge and skills to demonstrate competent counselling techniques in a simulated clinical situation of forty five minutes to one hour duration. You will be expected to learn how to apply the techniques learned in other modules across a broad range of unpredictable presenting problems. At various times during these modules you will have the opportunity to be a counsellor (whilst being mentored) to another participant, deal with your own issues as the client and be an observer.

**Prerequisites:** *Certificate in Counselling* or equivalent
**Co-requisites:** None.
Topics: Include and may vary – Application of Counselling Techniques, Rational Emotive Therapy, Client Centred Therapy, Gestalt, Neuro-Linguistic Programming, Counselling skills, Cognitive Behavioural Therapy, Transactional Analysis, Development of Therapy Strategy.

Materials: Computer, e-mail and internet.
Assessment: Practical
RPL: Available.
Award: Statement of Attainment

- **Practical Skills (CPDPW401)**
- **Practical Skills (CPDPW402)**

**Nominal Module Hours: 24 (both)**

Aim: To provide the additional opportunity to apply the integrated skills and knowledge being gained from modules in the Advanced Certificate course, in a practical simulated situation

Prerequisites: *Certificate in Counselling* or equivalent.
Co-requisites: Modules: Psychology for Counselling; Ethics, Legal and Business Issues; Counselling Application; TA & Gestalt; NLP in Counselling; Hypnosis, Counselling and Therapy.

Topics: Practical application of all topics in Diploma of Counselling.
Materials: None
Assessment: Self Assessment and Peer Feedback
RPL: Not available
Award: Statement of Attainment

- **Module: Hypnosis, Counselling & Therapy (CPDHCT401)**

**Nominal Module Hours: 108**

Aim: Designed to impart understanding of the basic concepts and principles of hypnosis and the different forms and methods of hypnotic suggestion. It is expected that you will be able to explain the basic concepts and principles of hypnosis and, working within ethical guidelines, to effectively guide a person into hypnosis, give hypnotic suggestions as required for specified issues and to bring the person out of hypnosis. It is also expected that you will know and be able to briefly outline the concept and some specific techniques of hypnoanalysis.

Prerequisites: *Certificate in Counselling* or equivalent.
Co-requisites: None.

Topics: Hypnotic Theory, Susceptibility Techniques, Induction, Deepening, Suggestion, Hypnoanalytical Techniques, Practical, Self Hypnosis, Transactional Analysis, Gestalt, Ethics and Safeguards, Practical Workshops, Clinical Approach to Common Conditions. - **Fieldwork (CPDIC401)**

**Nominal Module Hours: 49**

A Certificate of Currency is required as proof of current Professional Indemnity Insurance before commencing this module and will be required again on 1st October of any year in which the Intern is undertaking this module.

Professional Indemnity Insurance is not provided by the Academy and must be acquired from an insurance provider at the course participant's expense.

Aim: Experience in the field, i.e. the student organises their own fieldwork experience in either a community or health organisation or in the Academy’s Intern Clinic or some in each. The Academy then supervises your case histories. For further information about working in the Intern Clinic please see “Intern Clinic” under 23. Summaries of Modules – Professional Hypnotherapy Training earlier in this Handbook.
Prerequisites: All modules from *Diploma of Counselling*. Professional Indemnity Insurance.
Co-requisites: None

Special Requirements: Distance Learning requires a different delivery structure involving, amongst other things, the Fieldworker electing a supervisor or supervisors who will meet the standards set by the Academy. Please contact Administration for more detailed information and instructions about this.

Topics: Application of skills and knowledge from all modules.
Materials: Computer, e-mail and internet.
Assessment: Regular Supervision Sessions with Supervisor, Peer Feedback. From time to time (as determined by the Academy) the Intern will be supervised in-session with any one or more of their clients.
RPL: Available.
Award: Statement of Attainment

28. **GENERAL INTEREST HYPNOTHERAPY COURSES**

* Hypnosis, Counselling & Therapy (CPDHCT401) (abridged version)

| Nominal Module Hours: 48 |

Aim: Designed to impart understanding of the basic concepts and principles of hypnosis and the different forms and methods of hypnotic suggestion. It is expected that you will be able to explain the basic concepts and principles of hypnosis and, working within ethical guidelines, to effectively guide a person into hypnosis, give hypnotic suggestions as required for specified issues and to bring the person out of hypnosis. It is also expected that you will know and be able to briefly outline the concept and some specific techniques of hypnoanalysis.

Prerequisites: None
Delivery: Full Time (FT); Distance Learning (DL) or a combination of these modes.
Topics: Hypnotic Theory, Susceptibility Techniques, Induction, Deepening, Suggestion, Hypnoanalytical Techniques, Practical, Self Hypnosis, Transactional Analysis, Gestalt, Ethics and Safeguards, Practical Workshops, Clinical Approach to Common Conditions. (For a brief description of these topics see under Certificate in Advanced Clinical Hypnotherapy)
Materials: Computer, e-mail and internet.
Assessment: FT – Practical Assessment. DL – Requires presentation of an audio and/or video session accompanied by a verbatim transcript.
Award: Certificate of Completion
